

SUDHANSHU KALE

DATA SCIENTIST

SUMMARY

Passionate Data Scientist and student at MITWPU College with a strong foundation in machine learning, data analysis, and programming. Experienced in developing practical solutions through data-driven insights. Proven track record of completing diverse projects, including game development, online systems, and IoT applications.

EDUCATION Bachelor of Science in [Your Major] MIT World Peace University (MITWPU), [City, State] Expected Graduation: [Month Year]

PROJECTS

- Game on Rock Paper Scissors
 - Developed a Python-based interactive game using randomization and user input.
 - Implemented game mechanics, user interface, and score tracking.
- Online Booking System
 - Collaborated with a team to design and implement an online booking platform.
 - Utilized web development tools to create a user-friendly interface for booking services.
- Python Mini Projects
 - Created a collection of small-scale Python projects to demonstrate coding proficiency.
 - Projects included data manipulation, text processing, and basic algorithms.
- MAIOT (Machine Learning-based Automatic Parking System)
 - Designed an IoT solution using machine learning algorithms for automatic parking space detection.
 - Integrated image processing techniques and trained models to identify available parking spots.
